Work Experience

Web Developer
Techsteck Solutions Feb 2024 –Apr 2024

- During my internship, I gained hands-on experience in developing web applications using the React Js framework, javascript.
- Successfully integrated payment systems, ensuring secure and reliable financial transactions.
- Implemented basic features and functionalities under the guideline of senior developers, including form validation, data fetching and state management.
- Gained valuable insights into web development best practices and Industry standards.

Personal Projects

Movix   [Github]   [view]

- Developed Movix, a responsive React web application utilizing data fetched from TMDB API.
Implemented Redux for efficient state management, ensuring seamless data flow throughout the application.
- Utilized SCSS modules for styling, enhancing maintainability and scalability of the codebase.
- Integrated features including movie details, trailer viewing, canvas elements, genre filtering, search functionality, and cast information to enhance user experience and engagement.

Shopify   [Github]   [view]

- Developed E-Commerce, a responsive React web application.
- Integrated features Product Cards, Cart store, Increase or Decrease Product Quantity, search functionality and sign In/Signup functionality.
